INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY, JUNE 20, 2001 - 0530 MDT NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Six new large fires were reported in California, Virginia, Florida and Idaho. Four large fires were contained in California, Florida and Idaho. Initial attack activity was moderate in the Southern Area and light elsewhere. Very high to extreme fire indices were reported in Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming.

NORTHERN CALIFORNIA AREA LARGE FIRES:

MARTIS, Nevada-Yuba-Placer Ranger Unit, California Department of Forestry. A Unified Command with a California Department of Forestry Type 1 Incident Management Team (Posten) and a U.S. Forest Service Type 1 Incident Management Team (Gelobter) is in place. This fire is burning east of Truckee, CA and has burned into the Rose Mountain Wilderness Area. Isolated torching and crowning has been observed, but the fire has made no significant runs. Burnout operations on the southwest side of the fire are occurring.

INCIDENT NAME	ST UNIT 		EST TOTAL CTN PERS		I STRC \$\$\$ LOSS C-T-D
MARTIS	CA NEU	13500 32	UNK 2598	93 166 1	7 0 2.8 M

SOUTHERN CALIFORNIA AREA LARGE FIRES:

SHINN, Angeles National Forest. A Type 2 Incident Management Team (Domanski) is assigned. This fire is burning in steep terrain with limited access two miles north of Upland, CA. Crews made good progress tying in containment lines. Air operations have been effective in slowing the spread of the fire. Demobilization of resources is occurring.

HEMLOCK, San Bernardino National Forest. A Type 2 Incident Management Team (Walker) is assigned. This fire is six miles northeast of San Bernardino, CA. Demobilization of resources is occurring. Good progress in containment efforts is being made in all divisions.

BALDY, San Bernardino National Forest. This fire is located near Devore, CA. No other information provided.

SQF = Sequoia National Forest

SOUTHERN AREA LARGE FIRES:

LOST, George Washington and Jefferson National Forest. A Type 2 Incident Management Team (Kearney) has been ordered. This fire is eight miles northwest of Buena Vista, VA. The fire is burning in fuels affected by gypsy moth and southern pine beetle infestations.

MARKHAM PARK, Florida Division of Forestry. This fire is in Broward County, FL. Personnel are unable to access the fire. Smoke is a threat to local highways.

CORNERPOCKET NORTH, Florida Division of Forestry. This fire is in Broward County, FL.

BIG DADDY COMMAND, Florida Division of Forestry. This fire is located in Palm Beach County, FL. Limited access and shifting winds are causing containment problems.

EAST COUNTY LINE, Florida Division of Forestry. The fire started on 6/12 in Broward County, one mile from US Highway 27. No new information was reported. This will be the last report unless new information is received.

TAYLOR RANCH, Florida Division of Forestry. This fire is in Sarasota County, FL. No new information was reported.

CROSS OVER, Florida Division of Forestry. This fire is in Broward County, FL in the Everglades Conservation Area. No new information was reported. This will be the last report unless new information is received.

PINE, Florida Division of Forestry. This fire is in Sarasota County, FL. No new information was reported.

BLACK HOLE, Florida Division of Forestry. This fire is in Broward County, FL. No new information was reported.

CRITICAL, Florida Division of Forestry. This lightning caused fire is in Pasco County, FL. No new information was reported. This will be the last report unless new information is received.

TOMBSTONE, Florida Division of Forestry. This fire is in Broward County near the East County Line fire and was caused by lightning.

ROLF, Florida Division of Forestry. This fire is in Orange County, FL.

OUTLOOK:

The western states will remain under a high pressure system that will keep things sunny, hot and dry.

California will have high temperatures in the 60's and 70's along the coast, 80's and lower 90's in the higher mountains, 95 to 100 in the central valleys and 105 to 112 in the southern deserts. Minimum relative humidity will range from 7 to 18 percent and afternoon winds will be southwest to northwest at 5 to 15 mph.

Enough moisture still resides over New Mexico and southeast Arizona creating isolated afternoon and evening thunderstorms. High temperatures will be in the 80's and 90's, except for 100 to 112 in the deserts. Low relative humidity will range from 10 to 20 percent, except 5 to 10 percent in the desert areas. Winds will be west at 5 to 15 mph.

Nevada and Utah will have high temperatures in the mid 80's and 90's, except for 110 to 115 in southern Nevada. Minimum relative humidity will range from 5 to 15 percent, with winds southwest to west at 10 to 20 mph in western Nevada and 5 to 15 mph elsewhere.

Virginia will see a little increase in moisture with partly cloudy skies and isolated showers. High temperatures will be in the upper 80's and lower 90's. Minimum relative humidity will range from 35 to 45 percent and winds will be south to southwest at 5 to 10 mph.

A moist airmass will continue over Florida with partly cloudy skies and scattered afternoon and evening thunderstorms. High temperatures will be in the upper 80's and mid 90's. Low afternoon humidity will range from 45 to 55 percent and winds will be from the southeast at 10 mph.
